ESG Named One of America's Best Management Consulting Firms 2016 by *Forbes*

DENVER, Colorado -- Execution Specialists Group LLC (ESG) has been named by *Forbes* as "One of America's Best Management Consulting Firms" in April 2016. This annual list identifies top management consultancies that provide businesses with superior guidance in their respective practice areas. ESG, a Denver-based consultancy focused on strategy execution, was recognized as one of the nation's leading management consulting firms in the area of business strategy alongside 60 industry peers.

"We're extremely honored by this recognition", said Mark Newhall, ESG Founder and Chief Executive Officer. "To be nominated by our clients and endorsed by our peers across multiple business sectors is a tremendous validation of our commitment to client success. Our team continually strives to provide the best and most practical value possible in strategy development, which is never complete without disciplined and rigorous execution."

To compile this list of honorees, *Forbes* collaborated with online statistics provider Statista. Firms were considered based on lists of associations, consulting directories, competitions and company databases, as well as through the PR and marketing departments of 50 large management consulting firms.

Results are based on surveys of 7,286 partners and project managers from management consultancies, and 1,316 management consultancy clients. Executives participating in this survey were asked to recommend consultancies based on a list of industries and functional areas in which they have worked with a consultancy during the last four years.

ABOUT ESG
