ESG's Talent Recognized on Forbes' List of America's Best Management Consulting Firms for Fourth Consecutive Year

DENVER, CO – [Execution Specialists Group](#) (ESG), a strategy execution-focused consultancy, today announced that the organization has been named by *Forbes* to its list of [America's Best Management Consulting Firms for 2019](#). 2019 marks the fourth consecutive year that the talent and performance of ESG's people has been recognized on *Forbes*' annual ranking of the highest rated consultancies across all sectors and functional areas. ESG is among just over 200 management consulting firms nationwide to earn a spot on the list and the only firm headquartered in Colorado.

"We're really proud to receive this continual recommendation from clients, peers and senior partners. It's our people who have earned this recognition and with the team's combination of skills, talent and depth of proven experience, we continue to deliver on our unique value proposition," said [Mark Newhall](#), founder and CEO, ESG. "ESG is extraordinarily well-positioned. Our people continue to be sought after to plan and deliver on complex acquisition integration and rapid digital transformation initiatives."

To compile its list, *Forbes* partnered with market research company Statista to survey partners and executives of management consultancies, as well as senior executives who had worked with such firms over the last four years. Respondents were asked to recommend consultancies across predetermined sectors and functional areas and firms with a disproportionate number of recommendations were organized into star ratings. The ratings are taken from more than 1,000 clients and more than 7,5000 other management consultancies.

About ESG
